Data analyst and sustainability specialist turning complex data into evidence for climate and social action, with the United Nations experience in risk analysis and data storytelling

Work Experiences

Data Analyst Intern, UN Human Rights (OHCHR) – Geneva, Switzerland (Mar 2026 – Sep 2026)

- At the Innovation and Analytics Hub, analyzed human rights data, developed data visualizations, and created GIS maps to support evidence-based reporting and communication across OHCHR divisions
- Built interactive ArcGIS StoryMaps on electoral and human rights conditions in East Africa and the human rights situation in Sudan, integrating spatial data and trend analysis for internal and external audiences
- Designed Power BI dashboards tracking human rights indicators for operational decision-making
- Contributed to OHCHR's Microsoft Copilot AI enablement initiative, facilitating the integration of AI tools into organizational workflows

Public Relations Team Manager, Shinsegae Inc. – Seoul, South Korea (Sep 2017 – Jul 2022)

- Managed public communications, press tours, crisis management, and ESG/sustainability strategy at South Korea's leading retail corporation, including department stores, hotels, fashion, and F&B sectors

Journalist, The Chosun Ilbo – Seoul, South Korea (Apr 2011 – Jul 2017)

- Held a key editorial role at South Korea's largest media group, covering environmental sustainability, urban policy, and economic developments

Education

Exchange program – Master in Urban Governance, Policy and Planning (Sep 2025 – Dec 2025)

Sciences Po Urban School – Paris, France

- Following the Governing Ecological Transitions in Cities Track as part of graduate studies
- Courses: Ecological Urban Development, Urban AI, Technologies of the Ecological Transition, Carbon Accounting, Sustainable Mobility, Energy Network, QGIS, Urban Agriculture, Crisis Management

Master in Innovation, Human Development and Sustainability (Sep 2024 – Expected Dec 2026)

University of Geneva – Geneva, Switzerland

- Specializing in Future Cities and Regions
- Urban Futures Workshop: Developed a sustainable superblock proposal for Athens in collaboration with University of Patras architecture students. Conducted on-site research and GIS mapping, published the results via ArcGIS StoryMaps, and presented to the City of Athens.
- Public Policies for Spatial Justice: Olympic host city mock nomination project
- Awarded Best Practical Implementation at Hackathon Piaget 2025 for a crowdsourced urban heat island map

Exchange program – Business Administration (Aug 2009 – Dec 2009)

Copenhagen Business School – Copenhagen, Denmark

Bachelor Degree of Mass Communication/English Literature (Mar 2005 – Feb 2011)

Yonsei University – Seoul, South Korea

Publications

Co-first author (equal contribution) – *Urban Transformations*, Springer Nature

A community-centred polykatoikia scale framework for superblock transformation in Athens.

<https://doi.org/10.1007/s44327-026-00216-0>

Presentations

Urban Futures Symposium – Zurich, Switzerland (Sep 2025)

Presented research on the Superblock, showcasing climate adaptation and social inclusion in Athens

Languages

Korean (Native), English (Fluent), French (Conversational), Japanese (Intermediate)
